

Carbon and energy infrastructure upgrades

Multi Supplier National Framework Agreement
F/023/CEF/15/RB / OJEU: 2015/S 088-158843

What?

The Countess of Chester Commercial Procurement Service has let a multi supplier national framework agreement in conjunction with the Carbon and Energy Fund Limited (CEF) for the provision of carbon and energy infrastructure upgrade services. This framework is designed to deliver infrastructure upgrades that guarantee energy, carbon and cost savings.

Who?

We are working with the CEF to deliver this framework. With a proven track record and in-depth experience of procurement, engineering, legal and finance, the CEF is the only organisation that successfully guides public sector clients through the complex processes involved.

How?

The route to working with us and utilising this framework is to contact us. We will put you in touch with the CEF. The route to working with the CEF is to seek membership, which then makes all the support of the CEF available for the entire procurement, installation and savings monitoring period of the contract. You will then follow a five stage process:

- Stage 1:** Membership of the CEF
- Stage 2:** Invitation to mini-competition
- Stage 3:** ITT and contract close
- Stage 4:** Construction
- Stage 5:** Performance contract management

NHS Trusts do not pay the framework manager for use of this framework.

Framework benefits

- Created by the NHS for the NHS and Public Sector
- Efficient and proven OJEU compliant procurement process
- Access to £300m+ fund of capital funding
- The widest choice of ESCo contractors in the UK
- CEF provides all the specialist skills and resources
- No upfront fees
- TDA approved procurement process
- CEF have a track records of 40+ successful UK projects to-date

Contact
